

REMARKS

Claims 1-8 are pending in the application. In the Office Action, the Examiner has rejected Claims 1-8 under 35 U.S.C. § 103 (a) as being unpatentable over the Jung et al. (U.S. 6,097,949) in view of Salmi (U.S. 6,947,396).

Please amend Claims 1, 3 and 5 as set forth herein. No new matter has been added.

On October 2, 2007 an interview was conducted with the Examiner. An agreement was reached regarding distinguishing the predetermined code message of the claims of the present application from the messages of the cited references. It was agreed that if the claims were amended to define the predetermined message code as one that includes code for both type and contents of the broadcasting information, the rejections would be overcome. The Examiner also stated that this amendment should place the application in condition for allowance. Claims 1, 3 and 5 have been amended herein.

It is respectfully submitted that the dependent Claims 2, 4 and 6-8 are allowable based on allowance of their respective independent claims.

Accordingly, it is respectfully submitted that the present application is in condition for allowance. Should the Examiner have any questions, it is respectfully requested that the undersigned attorney be contacted at the earliest convenience to discuss the present application.

Respectfully submitted,

Paul J. Farrell
